Prof. Hofmeyr

Date 2 0 1 4 0 8 1 4

Additional comments:

Prof. Hofmeyr elucidates every text that we go through. Classes are both constructive and enjoyable and have given me both an overall understanding of Foucault and more specific concepts that we dealt with in detail.

Prof. Hofmeyer is a leader in her field and has passed forms of knowledge and learning unto me with detailed close recordings I have a deeper understanding of the course work, which in itself I not only find important but essential in our field and practices. This was facilitated by her leading us like lively and informal debates. She has maintained professor and through leading the course has inspired me to carry on with this work both in my personal life as well as my professional life (this course will be useful for my own research and my academic career). If it was not for professor Berda Hofmeyer I would be all the poorer. personally and professionally.

Prof. Hofmeyer has always been an interactive, kind and compassionate lecturer. She always allows for a space to develop one's ideas and communicate your positions. ~~She is presented~~ I have always found Prof to be a respectable teacher and lovely woman.
